01

The brand

La marque

Why Gymliink exists, how it behaves and how it speaks — in French and in Arabic.

01.1 — MISSION

Mission.

Give every gym in Algeria calm, precise tools for members, money and classes — and give every member a gym that knows them.

Gymliink is one platform on the web (gymliink.com) and on iOS and Android. Prices are in DA, payments go through Edahabia, CIB, CCP and BaridiMob, and the conversation with members happens on WhatsApp first. The product is bilingual: French, and Arabic set right-to-left.

Gym owners & front desk
Members, QR check-in, till, class planning, payments.

Coaches
Clients and training programs.

Members
Digital card with QR, booking, workouts, progress, payments.

Partners
Refer gyms, earn commissions.

Platform team
Manages every gym on Gymliink.

01.2 — TROIS TRAITS DE PERSONNALITÉ

Three traits.

01

Precise

Précis · دقيق

Exact numbers, clear states, no ambiguity — the product handles money and access.

NEVER

Vague, approximate, “about”.

02

Calm

Calme · هادئ

Quiet interfaces, short sentences, generous space. The gym is loud; Gymliink is not.

NEVER

Shouting, hype, exclamation marks.

03

Trustworthy

Fiable · موثوق

Says what happened, what it costs, what comes next. Never hides a fee.

NEVER

Jargon, guilt, hidden conditions.

01.3 — TON DE VOIX · FR / AR

Voice.

Short sentences. The facts first: what, how much, when. One action. No emojis, no exclamation marks in system messages. Western digits and DA amounts in both languages.

WELCOME

Bienvenue chez Atlas Gym, Yasmine. Votre carte est prête : présentez-la à l'entrée.

مرحباً بك في Atlas Gym يا ياسمين. بطاقتك جاهزة: قدّمها عند الدخول.

PAYMENT REMINDER

Votre abonnement mensuel (4 500 DA) arrive à échéance le 12 mars. Payez en 30 secondes par Edahabia ou BaridiMob.

02

The logo

Le logo

Two i’s, two links: the member and the gym, connected. Explored, constructed, and set in every version.

02.1 — TROIS PISTES EXPLORÉES

Three concepts, one choice.

CONCEPT A

SELECTED

Le lien « ii »

The two i’s of the name become two interlocked links — member and gym, connected. Selected: ownable, simple, legible at 16 px.

CONCEPT B

Check-in

The scan frame of a QR code and the tick of entry — the member’s daily gesture. Strong, but generic to scanning apps.

CONCEPT C

Le maillon g

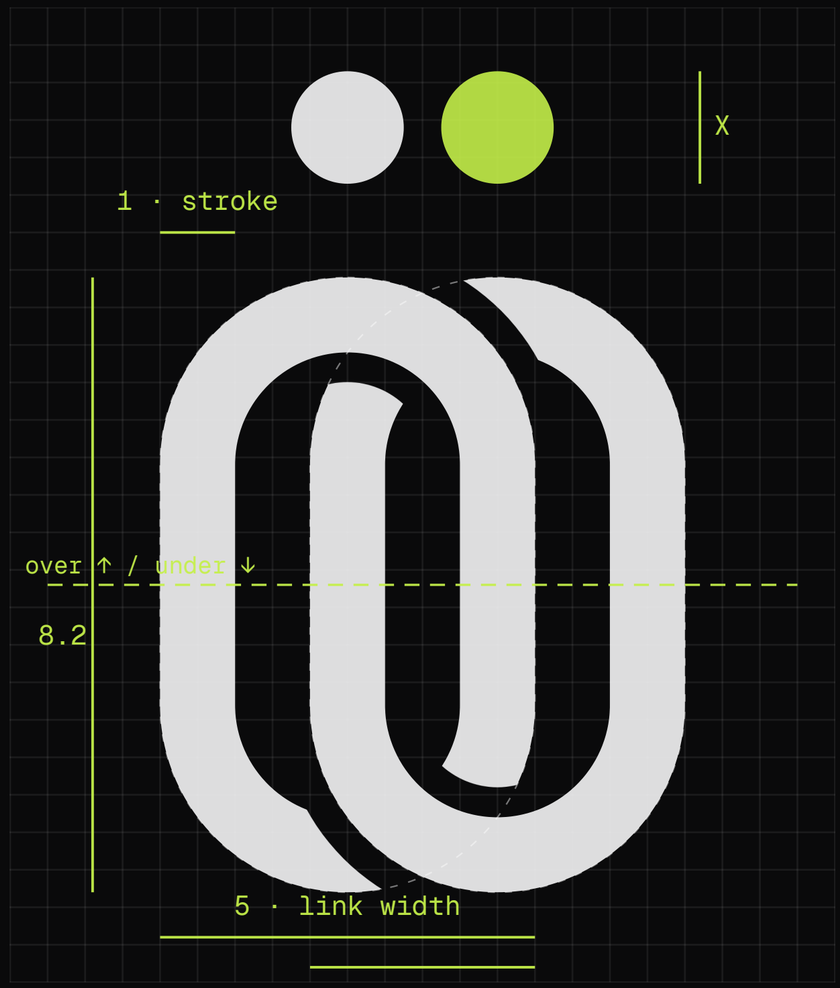

A lowercase g built from two chain links — Gym + Link in one letter. Clever, but heavy and hard to read small.

02.2 — CONSTRUCTION DU SYMBOLE

Construction.

Two capsule links — the stems of the two i's — interlock like a chain. Their tittles sit above as two heads: a member and a gym, linked.

Links	Two capsules 5 × 8.2 units, stroke 1, offset by 2 strokes
Weave	Left link passes over above the line, under below — gap 0.4
Tittles	Diameter X = 1.5 units, centred on the link axes
Volt	Only the right tittle — the member — carries Volt
Small size	Below 24 px use the optical version: heavier, no gap
Grid	Units of 10 px on the master artwork

02.3 — LOGOTYPE

Wordmark.

Geist SemiBold, lowercase, set tight and kerned by hand. The i’s lose their square dots for round tittles that echo the symbol — the second one in Volt.

g·y	m·l	l·ı	ı·ı	ı·n	n·k
-25 / 1000 EM	-25 / 1000 EM	-12 / 1000 EM	-10 / 1000 EM	-18 / 1000 EM	-25 / 1000 EM

Stacked

Arabic · RTL — the symbol leads on the right

Bilingual

Arabic stacked

Wordmark

The Arabic name جيم لينك is set in IBM Plex Sans Arabic SemiBold at 84 % of the Latin size, so both scripts carry the same visual weight.

02.5 — ZONE DE PROTECTION & TAILLES MINIMALES

Clear space & minimum sizes.

Keep a clear zone of 2X on every side — X being the diameter of a tittle. Nothing enters it: text, edges, other logos.

gymliink	**Horizontal**	min. 96 px · 24 mm

Volt never carries text on white or light grounds (1.4:1). On light, use Volt Text #4E6A0A for links and Volt Deep for graphics.

03.4 — THÈMES SOMBRE & CLAIR

Dark & light themes.

Dark is the default. Light follows the system setting: #F4F4F2 ground, white surfaces, ink text — Volt stays the accent for buttons and active states.

04.3 — ARABE, CHIFFRES ET FORMAT DA

Arabic pairing, numerals & DA.

Size

Set Plex Arabic 8 % larger than Geist at the same level, line-height 1.6 (vs 1.3).

Weight

One step lighter: Geist SemiBold pairs with Plex Arabic Medium in running text, SemiBold in titles.

Direction

Arabic screens mirror fully: navigation, icons with direction, progress. Numbers, codes and card IDs stay LTR.

Never

No faux-bold, no Latin fonts for Arabic, no mixed scripts in one line of body text.
