Toolkit	57

01

The brand.

La marque.

Who we are, why we exist, where we are going — and how we sound when we speak.

01.1 — LE NOM

The name.

{ Develop · The · One }

Our name is our method and our promise: we **develop** brands — with code, creativity and data — until each one becomes **the one** its market chooses.

D

Develop

To build, to code, to grow. Websites, apps, campaigns and brands — we make them.

T

The

The connection: the cable that links a brand to the people it serves.

O

One

The one your customers choose first — at the centre of its network.

01.2 — NOTRE HISTOIRE

Our story.

DevelopTheOne started with a simple idea: **marketing and technology should not be two separate jobs.**

Too many businesses have a website that doesn't sell, social pages that don't grow and campaigns no one measures. The developer, the designer and the marketer never sit at the same table.

We built DTO to put them together — **code, creativity and data under one roof** — and develop every client into the one their market chooses. It was our first agency, and the community that grew around this logo is the proof that the idea works.

OUR AMBITION

Every client, the one its customers choose.

`{ the one }`

01.3 — POURQUOI DTO

Why we exist.

01

Digital is where choices are made.

Customers search, compare and decide on a screen. A brand that isn’t built for it doesn’t exist.

02

Code + creativity, together.

A beautiful campaign on a slow website wastes money. We build both — so they work as one.

03

Growth must be measured.

Every dinar invested should show its result. We track, report and improve — every month.

01.4 — MISSION & VISION

Mission & vision.

MISSION · WHAT WE DO

Develop every client into the one its market chooses.

With code, creativity and data — from the first click to the loyal customer.

VISION · WHERE WE ARE GOING

Become the reference digital marketing agency in Algeria — where technology and creativity meet.

And keep growing the community that believed in DTO first.

01.5 — NOS OBJECTIFS

Our goals.

01 Build

Websites, apps and platforms that work — and sell.

02 Grow

Audiences that grow on social media, on search and beyond.

03 Measure

Clear monthly reports with real numbers.

04 Community

Keep growing the DTO community that made us.

05 Excellence

International standards for Algerian brands.

06 Talent

Train the next generation of digital creatives.

01.6 — NOS VALEURS

Our values.

Innovation

الابتكار

New tools, new ideas — always one step ahead.

Precision

الدقة

Clean code, clean design, clean numbers.

Boldness

الجرأة

We aim to be the one — not one more.

Transparency

الشفافية

Open reports, honest advice, no hidden costs.

Community

المجتمع

We grow with the people who follow us.

01.7 — PERSONNALITÉ

Personality.

If DTO were a person, it would be the developer-friend who also understands marketing — clever, direct and always building something.

Smart
but never ~~cold~~

Technical
but never ~~complicated~~

Bold
but never ~~loud~~

Ambitious
but never ~~arrogant~~

Friendly
but never ~~casual~~

Fast
but never ~~careless~~

01.8 — TON & LANGAGE

Voice & tone.

Speak human, not jargon.

We explain technology simply. If a client needs a dictionary, we failed.

Short and active.

Short sentences. Active verbs. One idea per message.

Prove with numbers.

Results and examples over adjectives.

A wink of code.

Braces, </> and short code lines are part of our voice — used with care.

01.10 — SIGNATURE

One promise, four voices.

ENGLISH	**Become the one.**	Primary signature — logo lockups, campaigns, international.
FRANÇAIS	**Devenez la référence.**	Business documents, proposals, press.
CODE	**{ develop: "the one" }**	Social media, tech content, merch.
عربي	**كون الأول**	Arabic-speaking audiences and community posts.

Hashtags : **#DevelopTheOne** · **#BecomeTheOne** · **#DTO**

The logo.

Le logo.

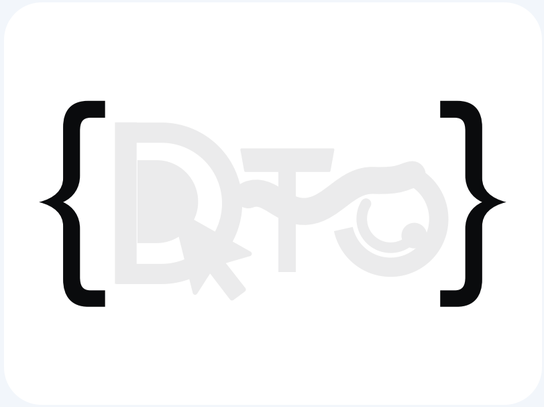

Code, a click, a connection and a community — inside two braces. How it is built, how it is used, and how it must never be used.

02.1 — LE SYMBOLE

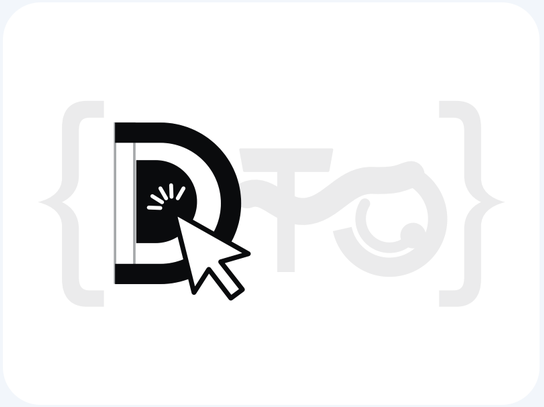

The symbol.

The DTO mark tells our whole job in one line: inside the braces of code, a click develops the brand, a cable connects it, and the O puts it at the centre of its network.

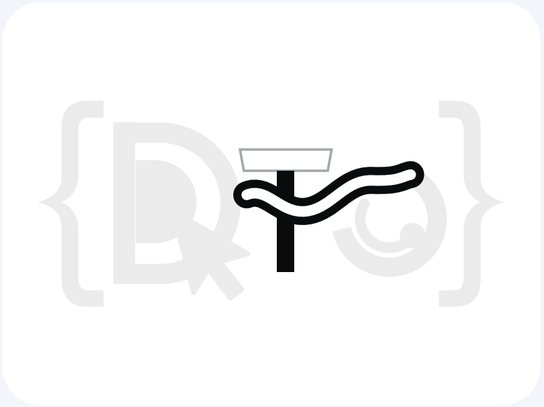

The braces CODE

Everything we build starts as code.

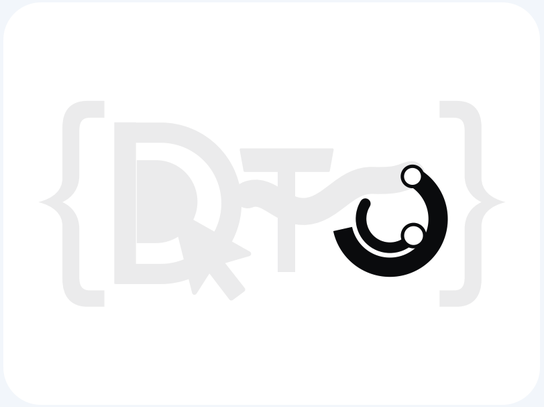

D + cursor ACTION

Develop — and the click that turns a visitor into a client.

T + cable CONNECTION

The link between a brand and its people.

O + nodes COMMUNITY

The one, at the centre of its network.

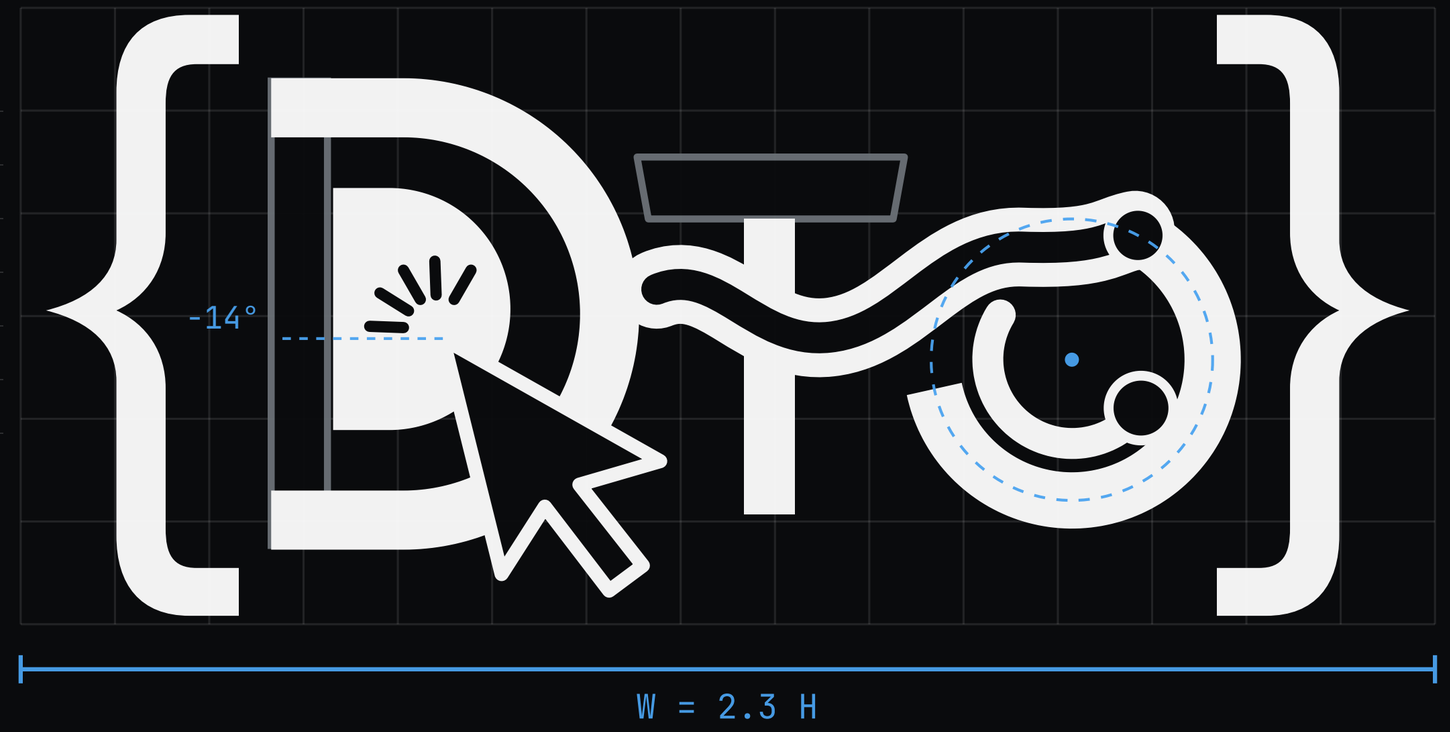

= the one.

02.2 — CONSTRUCTION

Construction.

Redrawn as clean vectors from the original logo the community already knows. Always use the master files — never redraw it.

RATIO	Mark 2.3 : 1 — braces enclose D, T and O
BRACES	Pointed beak, flat ends, full height
D	Double outline + solid core, light left stem
CURSOR	White pointer, black outline, −14°, click burst
CABLE	Black tube with white core, links T to O
O	Open ring + inner arc + 2 nodes
WORDMARK	Montserrat Bold, DTO Blue, cap height = 27 % of H

02.4 — ICÔNE & ICÔNES D'APPLICATION

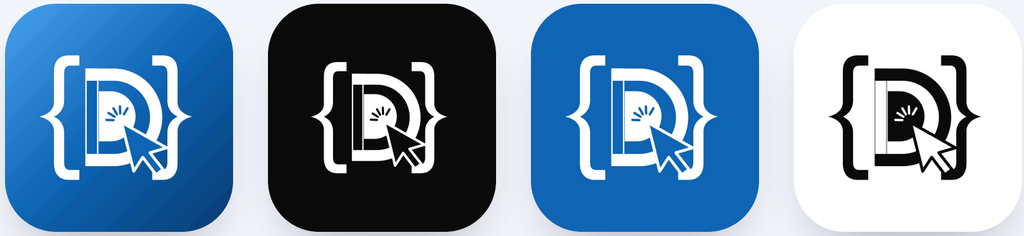

Icon & app icons.

When space is small or square, the braces, the D and the clicking cursor carry the brand alone: profile pictures, favicons, app icons, stickers.

02.5 — ZONE DE PROTECTION & TAILLES MINIMALES

Clear space & sizes.

Keep a clear zone equal to **X** — the width of one brace — on every side. Below the minimum sizes, switch to the icon.

كون الأول

نص عربي واضح وبسيط. جمل قصيرة وفكرة واحدة في كل رسالة.

BILINGUAL RULES · RÈGLES BILINGUES

Cairo for all Arabic text.

Bold 700 for titles, Regular 400 for body. Never fake Arabic with a Latin font.

Right-aligned, right-to-left.

Arabic blocks align right; Latin blocks align left. Never justify Arabic.

One script per line.

Put French and Arabic on separate lines or separate blocks, never mixed in one sentence.

Optical size.

Arabic looks smaller than Latin at the same size: set it about 10–15 % larger.

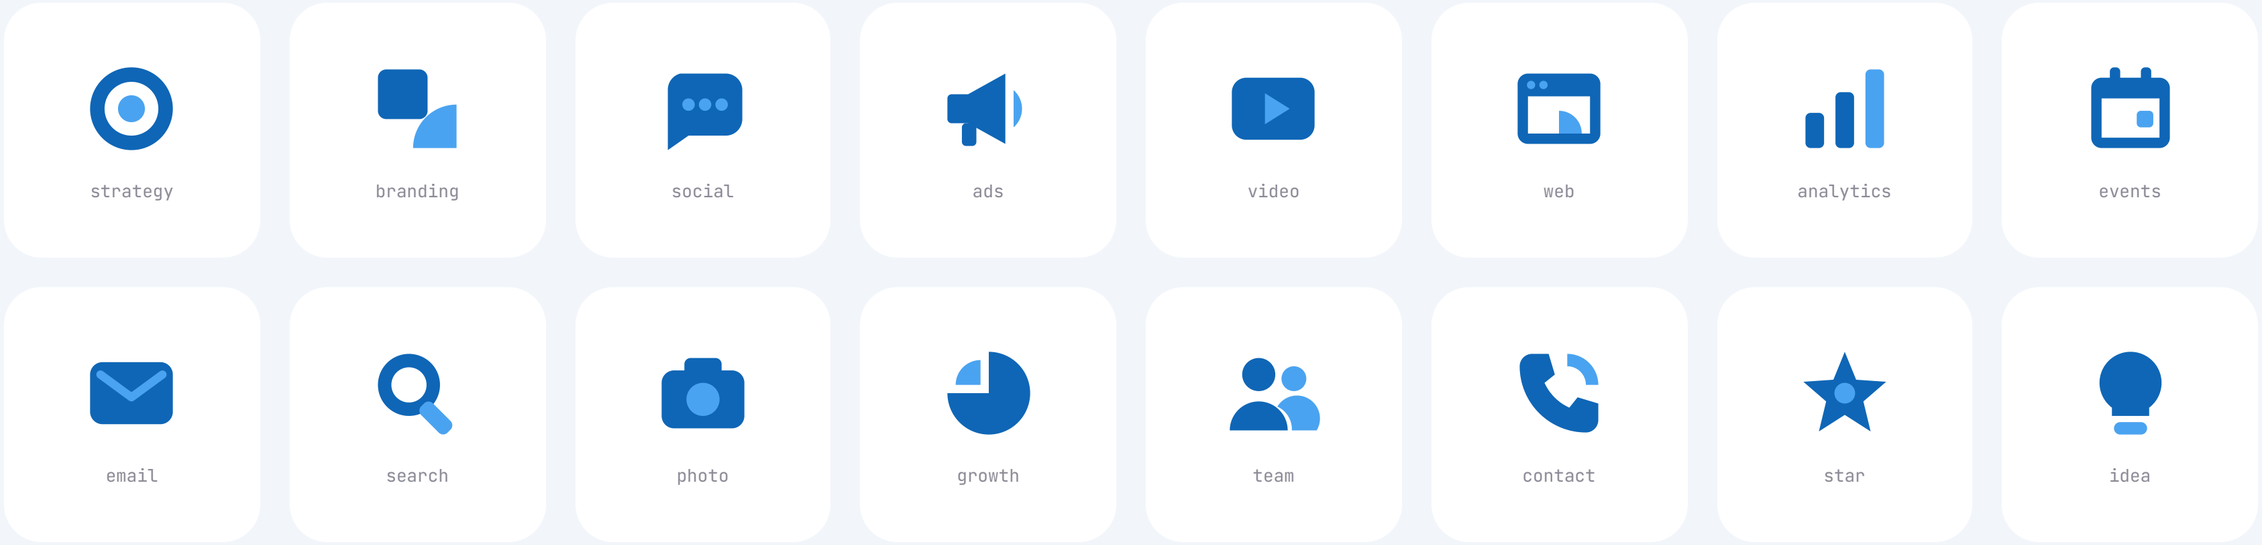

Numbers.

Use Western digits (0–9) in both languages for consistency.

03.5 — ICONOGRAPHIE

Iconography.

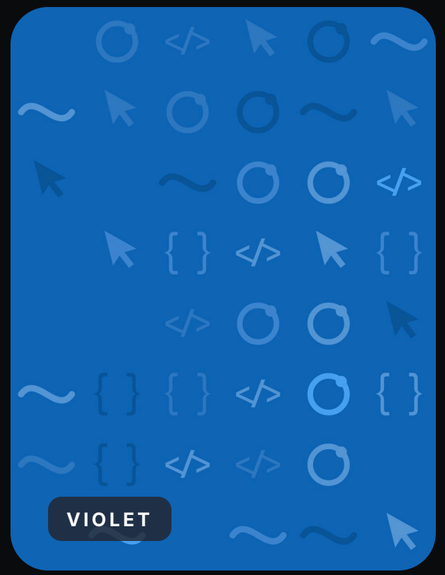

Solid, geometric icons on a 48-unit grid with 2–4 unit rounding. Each carries one Sky Blue accent — like the click highlight. Supplied as SVG & PNG in five colourways.

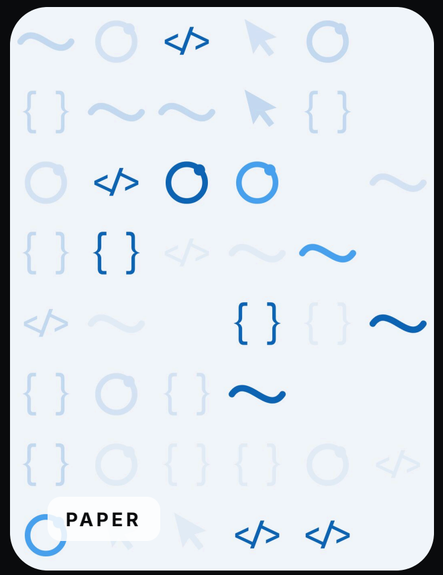

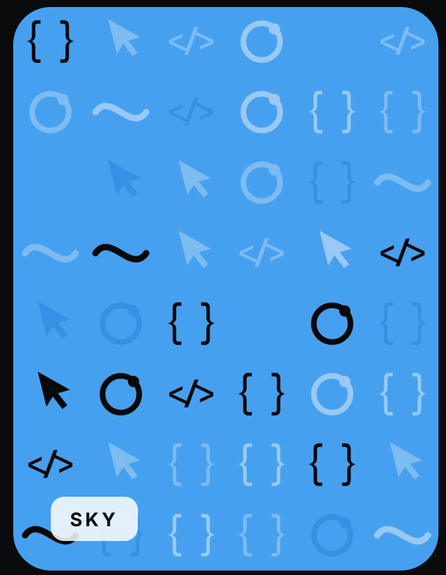

03.6 — MOTIFS & ÉLÉMENTS GRAPHIQUES

Patterns & elements.

{} The braces

Frame the key message in {{ }} — the code signature of DTO.

{} The pattern

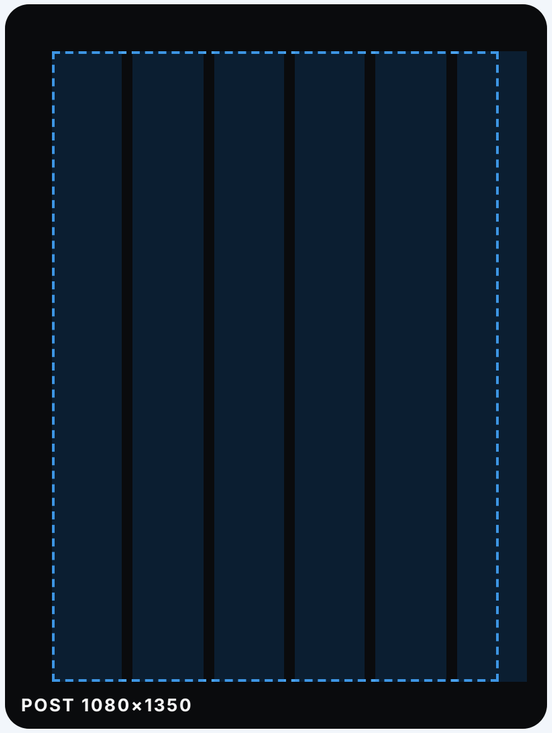

Braces, </>, cursors, nodes and waves on a square grid. Seamless tiles supplied.

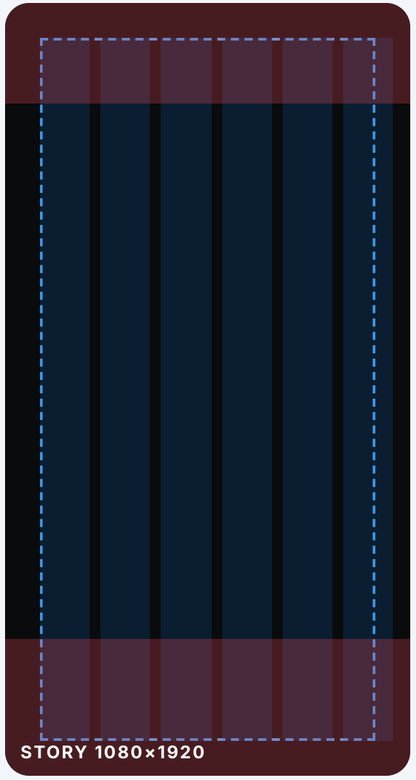

{} The crop

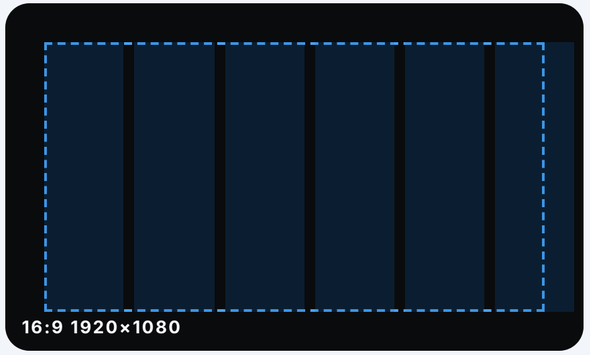

Scale the {D} icon up and let it bleed off the edge — never shrink it into a corner.

Hierarchy
One headline, one message, one call-to-action.

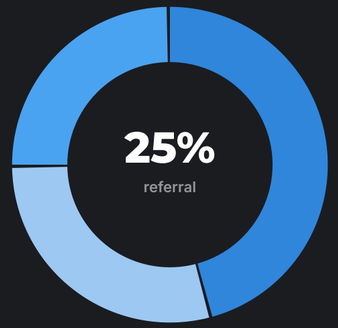

03.8 — GRAPHIQUES & REPORTING

Data & charts.

Reports are part of the brand. Charts sit on Code Black, data is DTO Blue, and sky blue is reserved for the one number that matters. Every series is labelled — colour is never the only key. (Sample data.)

03.9 — ANIMATION

The braces open, the D draws itself, the cursor flies in and clicks, the cable connects the O — then the name appears.
Use the supplied MP4 / MOV / WebM files; never re-animate the logo by hand.

Fast in, calm hold.

Elements arrive in 0.4–0.8 s, then hold. Logos stay on screen ≥ 2 s.

Build, don’t decorate.

Motion reveals information — lines draw, the cursor clicks, text wipes in.

Applications.

Applications.

How DTO looks everywhere — on screens, on paper, on products and on the street.
